Why book a makeup lesson?

If you've ever desired to understand which makeup styles and techniques elevate your best features, which products work with your skin, which products give you that radiant 'I woke up like this' look, then a lesson is for you!

Makeup has advanced significantly in recent years. You may find yourself reaching for the same products you used 10/15 years ago that no longer work for you and would love an update for a more modern makeup routine.

Perhaps you've always wanted to master a makeup technique you've been unsure of and how to make it work for your features.

Are you looking for tips and tricks that also work for your day to day life? Perhaps you only have 5 minutes to do your makeup each day, or you enjoy getting up earlier to put on a full face of your best makeup. You may not wear makeup at all but would love to. Whatever the requirement, a lesson can help you learn how to apply makeup that works for YOU.

Makeup to elevate your natural beauty

To me, the right makeup elevates our natural beauty. Makeup is expression, with it we have the freedom to express who we are, feel confident and powerful. Makeup can wake you up in an instant, help you feel brighter and give you the boost to take on the day, whatever the world throws your way.

1:1 Makeup Lesson

01 | THE COMPLETE LOOK £125*

- 2 hour session

This 1:1 lesson is customised to your makeup needs and what you would like to achieve.

To begin we will have a consultation to discuss what you would like to take away from the lesson. We will go through your current makeup bag/ products/ brushes (don't worry if you don't have many!)

We will discuss colours, what you are drawn to but also what shades complement your face and skin best.

Then we will go through a step by step makeup application, during each step focusing on what works for your features, and shape to enhance using products suited to your age and skin. I will demonstrate each step on your face, showing you which brushes to use + the technique to achieve the desired look. The products we use during the lesson can be a mix of yours (if you already have some that are lovely) and my high end makeup kit. It may be you'd love to try all new products but if you already have some you love you may want to learn how to use them better rather than buying more after the lesson. At the beginning of the lesson you will be given a face chart and encouraged to make notes or take photos during the lesson.

**Make it Luxe: a full new makeup brush set given to you at the start of the lesson and a list of products used emailed to you after the lesson (Additional £100)*

**Take the look from day to night: Additional £30*

1:1 Lesson Specifics

02 | EYE MAKEUP (DAY LOOK) £70

1 hour session

This 1:1 lesson focuses on a soft eye makeup look to enhance and define your eyes. An eye makeup that can be adapted and worn day to day.

We will discuss your eye shape and how to bring out the best in your eyes using shades that complement them and your complexion. Each step of the eye makeup application will be demonstrated on you whilst explaining different eyeshadow products and textures that work for your eye area. This will include eye liner application to define the eyes. We will focus on one eye look using specific shades that enhance your eyes. The techniques demonstrated during this lesson will enable you to take these techniques and adapt them at home using different shades you love.

This lesson does not include false eye lash application.

03 | EYE MAKEUP (DAY TO NIGHT LOOK) £85

1 hour 30 mins session

This 1:1 lesson focuses on a soft eye makeup look to enhance and define your eyes and how to transition the look into an evening eye makeup.

We will discuss your eye shape and how to bring out the best in your eyes using shades that complement them and your complexion. Each step of the eye makeup application will be demonstrated on you whilst explaining different eyeshadow products and textures that work for your eye area. This will include eye liner application to define the eyes. We will focus on two eye looks (day to evening) using specific shades that enhance your eyes. The techniques demonstrated during this lesson will enable you to take these techniques and adapt them at home using different shades you love.

This lesson includes false eye lash application, strip or individual.

04 | COMPLEXION PERFECTION £70

1 hour session

This 1:1 lesson will focus on achieving radiant and luminous skin. During this step by step lesson, we will discuss and demonstrate corrective and brightening techniques to give your skin that 'I woke up like this' healthy glow. To begin we discuss how to correctly prep the skin for makeup and move onto makeup products that help to enhance your skin and achieve a more even and vibrant complexion. This will include sculpting techniques to add shape and dimension to your face as well as brush techniques that work best on your skin and for your features.

This lesson focuses on the complexion only.

05 | 40+ RADIANT MAKEUP

- 2 hour session

£125*

This 1:1 lesson is designed for those gorgeous faces 40+

As our skin matures, so does our need for a change of products and makeup techniques to maximise our natural beauty. Have you been reaching for the same products and using the same makeup techniques for the last 20 years? If you'd like a more modern approach to makeup and how to apply it using techniques that work for your skin, its texture and colour, you will enjoy a 1:1 lesson on learning how to adapt makeup products and techniques that give you radiant skin and a polished makeup application. It's not about anti aging (we all age!), it's focused on techniques that make us feel brighter which can give us a boost and confidence. It is those feelings that can help us feel more youthful and express who we are.

To begin we will have a consultation to discuss what you would like to take away from the lesson, any specific areas of your face you'd like help with when it comes to makeup. We will go through your current makeup bag/ products/ brushes (don't worry if you don't have many!) We will discuss your skincare routine and ways to add to your routine that will maximise makeup results.

We will discuss colours, what you are drawn to but also what shades complement your face and skin best.

Then we will go through a step by step makeup application, during each step focusing on what works for your features, and shape to enhance using products suited to your age and skin. I will demonstrate each step on your face, showing you which brushes to use + the technique to achieve the desired look. The products we use during the lesson can be a mix of yours (if you already have some that are lovely) and my high end makeup kit. It may be you'd love to try all new products but if you already have some you love you may want to learn how to use them better rather than buying more after the lesson.

At the beginning of the lesson you will be given a face chart and encouraged to make notes or take photos during the lesson.

*Make it Luxe: a full new makeup brush set given to you at the start of the lesson and a list of products used emailed to you after the lesson (Additional £100)

*Take the look from day to night: Additional £30
